

StoryConnect

What is the Problem?

Current platforms for reading and writing are disconnected experiences.

Current Tools

- ❖ Suite of professional writing tools
- ❖ Chapter organization and notes
- ❖ AI assistance

Writing Tools

Write like a pro with intuitive, easy-to-use book authoring tools. Including spelling and grammar checker, distraction-free mode, goals and more.

Collaboration

Instantly share your story with editors, beta readers and co-authors. Control their access level, track changes, create notes, and write together.

Cover Design

Design eye-catching, professional covers for ebook, paperback, and hardback with intuitive design tools and extensive royalty-free image library.

Visual Boards

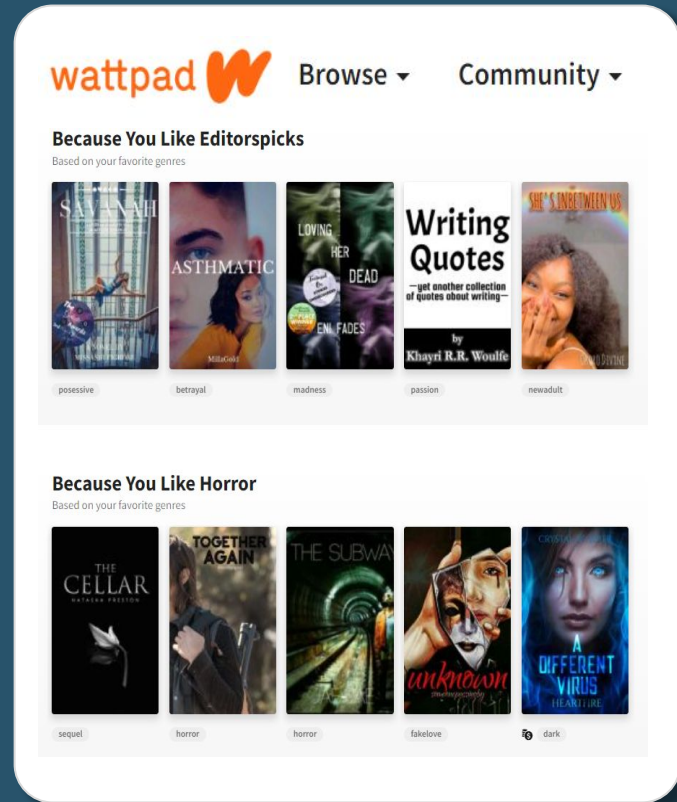

Plot your book to the Nth degree with visual outlining boards. Organize notes, plan chapters, free your inspiration and see your story take shape.

Current Tools

❖ Community

❖ Browsing

❖ Sharing

Solution Overview

Hosts a suite of writing tools

- ❖ **Tools for organizing books into parts and chapters**
- ❖ **Tools for managing story direction and continuity**
- ❖ **Allows writers to share their work with community**

Solution Overview

Many avenues of community feedback

- ❖ **Ability to annotate and highlight stories**
- ❖ **Direct feedback as comments on chapters**

Who are our users?

Writers
